

# RQ Worker

## Einleitung

The screenshot shows the RQ Worker web interface. On the left is a sidebar with navigation links: 'Filtern nach', 'Zugewiesen zu', 'Erstellt von', 'Filter bearbeiten', 'Schlagworte', 'Schlagworte anzeigen', and 'Filter speichern'. The main area displays a table of jobs. The table has columns for 'ID', 'Status', 'Queue Type', 'Successful Job Count', 'Failed Job Count', and 'Zuletzt aktualisiert am'. There are three rows of job data, each with a checkbox and a heart icon in the ID column. The status for all jobs is 'idle'. The queue types are 'default', 'long', and 'short'. The successful job counts are 4595, 103, and 475 respectively. The failed job counts are all 0. The last updated times are 1m, 2m, and 1m ago. A search bar at the top right contains the text 'Suchen oder Befehl eingeben (Strg + G)'. The top left shows the 'RQ Worker' logo and a search bar. The top right shows 'Hilfe' and 'WS'.

ID	Status	Queue Type	Successful Job Count	Failed Job Count	Zuletzt aktualisiert am
<input type="checkbox"/> <input type="heart"/> ID					3 von 3
<input type="checkbox"/> <input type="heart"/> 1595	idle	default	4595	0	- 1m 0
<input type="checkbox"/> <input type="heart"/> 1597	idle	long	103	0	- 2m 0
<input type="checkbox"/> <input type="heart"/> 1596	idle	short	475	0	- 1m 0
