

Email Queue

Einleitung

In der E-Mailqueue finden wir alle E-Mails die unser System versendet.

The screenshot shows the 'Email Queue' interface. On the left, there are filter options: 'Filter By' with 'Assigned To' and 'Created By' dropdowns, 'Edit Filters', 'Tags' dropdown, 'Show Tags', 'Save Filter', and 'Filter Name' input. The main area displays a table of emails. A dropdown menu is open over the first row, showing status options: 'Not Sent', '✓ Sending' (selected), 'Sent', 'Error', and 'Expired'. The table has columns for 'Name', 'Status', and 'Name'. The first row shows 'f3fce76ecc' with status 'Sending'. The second row shows 'dd960f6471' with status 'Sending'. The third row shows '8e9439ae14' with status 'Sending'. The fourth row shows 'af0834d169' with status 'Sending'. The fifth row shows '99e81b306a' with status 'Sending'. The sixth row shows '897f9192ae' with status 'Sending'. The seventh row shows '308b4f61d8' with status 'Sending'. The table also shows 'Last Modified On' and '7 of 7'.

Name	Status	Name	Last Modified On
f3fce76ecc	Sending	f3fce76ecc	8 M
dd960f6471	Sending	dd960f6471	12 M
8e9439ae14	Sending	8e9439ae14	12 M
af0834d169	Sending	af0834d169	2 y
99e81b306a	Sending	99e81b306a	2 y
897f9192ae	Sending	897f9192ae	2 y
308b4f61d8	Sending	308b4f61d8	2 y

Es gibt hier die Stati Not Sent, Sending, Sent, Error und Expired.

Das löschen von E-Mails aus der Queue ist dem Anwenderkonto [Administrator](#) vorbehalten.

Eingehende E-Mails überwachen

Gegenstück zur Email Queue ist der DocType [Unbearbeitete E-Mail \(Unhandled Email\)](#). Dort können wir eingehende E-Mails überwachen.
