

# Webhook Request Log

## Einleitung

The screenshot shows a web interface for a Webhook Request Log. The breadcrumb path is "Integrations > Webhook Request Log > b72954c8e2". The interface displays the following details for a request:

- User:** administrator@sun
- URL:** bit.de/api/checklist/webhook
- Headers:** {"Content-Type": "application/json"}
- Data:** {"name": "PCLD-03019", "protocol\_state": "6", "sonnen\_id": "0W07S0000017P2QWAW"}
- Response:** "success"

On the left side, there are options for "Assigned To", "Attachments" (with an "Attach File" button), "Shared With", and "Tags". At the bottom left, there are icons for "Follow" and "0" next to it.

# Erweitertes Logging

Im Webhook Request Log sehen wir nicht alle Informationen. Weitere Logs werden im Fehlerprotokoll geschrieben.
